--------------------------------	---

The equipment for which I am requesting a rebate is installed and operational. I understand that Efficiency Vermont (or their designated contractor) reserves the right to conduct field inspections and may use my information submitted in this form to do so. I certify that all my information is correct to the best of my knowledge, I meet the eligibility requirements listed on the last page, and agree to the terms and conditions. For full terms and conditions, see www.encyvermont.com/terms. I understand that income self-certification may be subject to further verification by Efficiency Vermont. If necessary, I will provide the information required to verify this data. I, therefore, authorize such verification, and I will provide supporting documents, if necessary.

For Internal Use
Project _____

To help you save money and cut carbon, your electric utility provides the funding to make this rebate possible:

Eligibility Requirements

- Visit www.encyvermont.com/GSHP to determine the rebate amount.
- Rebates are for new residential systems (not replacing an existing geothermal system) up to 10 tons and commercial systems up to 50 tons.
- Equipment must be ENERGY STAR® certified (water-to-air and water-to-water heat pumps) or meet or exceed AHRI certified performance values in the table at right under full load conditions.
- Equipment must be installed by an Efficiency Excellence Network contractor in the ground source heat pump group. Find a contractor by visiting www.encyvermont.com/contractor and searching "Heat Pumps - Geothermal / Gound Source".
- Contractor must submit completed startup sheet to ensure proper system operation.
- If you receive electric service from Hyde Park Electric, you may not be eligible for the full incentive amount. To discuss your project, call Efficiency Vermont at 888-921-5990.

	EER	COP
Water to water	16.1	3.1
Air to water	17.1	3.6

Product Information (complete row for each ground source heat pump installed or attach AHRI certificate)

Manufacturer	Model #	EER	COP	Full Load Heating Capacity (btu/h)	Full Load Cooling Capacity (btu/h)	Rebate Amount (see website)

Rebate amount is determined by size of system in tons. Tons are calculated by dividing AHRI Full Load Heating Capacity (BTUs) by 12,000.

Installation Information

Equipment installer company name: _____ Check primary contractor:

Ground loop (driller) company name: _____

Installation date: _____ Rebate amount: \$_____

Product type: Water-to-air Water-to-water System type: Closed loop Open loop Dx

Installation type: Commercial Residential Project type: New Construction/Major Renovation Retrofit

Existing primary heating fuel type: Electric Propane Oil Natural Gas None (new construction)

Existing primary heating system type: Boiler Furnace None (new construction)

Existing water heating fuel type: Electric Propane Oil Natural Gas None (new construction)

Will ground source heat pump provide domestic hot water? Yes No

Number of people in household: _____

Will ground source heat pump provide cooling? Yes No

Program Eligibility and Exclusions

Rebate cannot be combined with any other Efficiency Vermont offer (including point of purchase discounts) and is subject to change without notice. In the event a rebate is discontinued or changed, submissions will be honored at the higher amount if the qualifying product was purchased prior to the effective date of the change, with installations and rebate submission occurring within 30 calendar days of the change.

All equipment must be new (not replacing an existing geothermal system), installed in Vermont, and listed on the Qualifying Products List (or meet qualifying criteria) at the time of purchase. Used, rebuilt, or refurbished equipment is not eligible.

Payment will not exceed the purchase price, and excludes all other costs including shipping, sales tax, or disposal/recycling expenses (installation costs of HVAC and refrigeration equipment, and installation and freight costs of agricultural equipment are eligible). Customer is responsible for any tax liability associated with rebate payment. Allow 60 calendar days for delivery of payment. Incomplete or missing information will delay processing.

IBM, Global Foundries, Omya, and Vermont electric utility companies are not eligible.
