

RENEWABLES AND GREEN BUILDINGS IN VERMONT

Richard Faesy, Efficiency Vermont
Bill Maclay, William Maclay Architects and Planners
Chuck Reiss, Reiss Building and Renovation

Better Buildings by Design Conference
Burlington, Vermont
February 13, 2008

SESSION DESCRIPTION

Explore the many facets that go into green design and implementation, including incorporating renewable energy systems. Design details, permitting, product availability, qualified installers, and customer concerns can all present significant hurdles. Hear a local builder and architect describe their experience with the logistics of including renewable energy in green projects.

OVERVIEW

- Richard Faesy, Efficiency Vermont
 - Green Building Programs, Services and Organizations Overview
- Bill Maclay, William Maclay Architects and Planners
 - Design Aspects
 - Integrating Renewables into the Design
 - Commercial Focus
- Chuck Reiss, Reiss Building and Renovation
 - Builder Perspective
 - Residential Focus
 - Case Studies
- Q&A
