Your partnership with Efficiency Vermont

IDENTIFY YOUR OPPORTUNITIES FOR ENERGY EFFICIENCY

EFFICIENCY VERMONT WILL:

ENROLL PROJECT ●

- Gather information about your project
- Confirm your project has energy efficiency opportunities
- Assign a project manager who will work with you and your team

ANALYZE EFFICIENCY UPGRADES ●

- Provide cost/benefit analysis for energy-efficient options
- Identify amount of financial incentives available for your project

REVIEW CONTRACTS ●

- Review contract documents before signing to ensure your efficiency choices are defined

We will work with you to achieve the levels of efficiency that are appropriate for your project. If you are interested in including Efficiency Vermont on your project team, please contact us to enroll your project.

START CONSTRUCTION

IMPLEMENT
PROJECT

WE WILL:

● WORK WITH YOUR PROJECT TEAM TO

- Determine where energy efficiency opportunities are in your project
- Identify energy-efficient options
- Develop pricing for efficiency upgrades

● ESTABLISH INCENTIVE AGREEMENT

- Provide an agreement that finalizes incentives for the planned efficiency upgrades

● ASSIST WITH CONSTRUCTION & CLOSE-OUT

- Meet with contractors/installers to discuss efficiency requirements
- Review change orders for energy impacts
- Inspect to verify installation of planned efficiency upgrades
- Pay incentives for installed measures
