##### PROJECT PARTNERS (if applicable—architect, consultant etc.)

Name of the Efficiency Vermont Energy Consultant for your project:

##### PROJECT DESCRIPTION (attach additional sheets as needed)

Efficiency Vermont has technical project information (R-values, U-factor, air leakage, HVAC efficiency, etc.) on file and will use it to judge your entry. Please attach a 1-2 page write up and photos to provide additional information above and beyond technical specifications:

1. What major energy efficiency challenges did you encounter during this project? How did you solve them?
2. What healthy home features are incorporated into the project?
3. What other non-energy benefits make this project unique (e.g. innovative/adaptable design, location benefits, comfort features)?
4. What feedback have you received from the homeowner/customer?
5. What was the project construction cost?

-Include: materials, labor, finishes, appliances. Estimate the value of owner-builder labor and donated labor or materials

-Exclude: land, foundation, other site work, renewable energy systems, any incentives
