

2025 Conference Program

2030 on the Horizon:
Assessing Vermont's Vision Versus Reality

ANNUAL HIGHLIGHTS

The impact of Efficiency Vermont's technical, educational, and financial energy efficiency services

THE BENEFITS

Efficiency Vermont delivers energy savings that make Vermont economically stronger and more affordable for households, businesses, and communities, and help move the state toward its clean energy goals. Thanks to Vermonters' investment and participation, below are a few of the lifetime benefits cumulatively from 2000 to 2023:

Over

\$3.3 billion
saved by
Vermonters

\$14.1 million
metric tons of pollutants
avoided

removing 3.3 million cars

5.8¢/kWhCost of saving electricity with efficiency

16.32 million MMBtu saved

The fuel it takes to heat 20 thousand homes for 20 years

ETTER POSITION OF THE POSITION

Attending sessions to earn continuing education units (CEUs)?

For all CEU reporting, including AIA and BPI, pick up the credit reporting form at the registration desk. Current AIA and BPI members must return the completed original (top sheet) form to the registration desk at the end of your last day attending the conference and keep the yellow sheet for your records. All other accrediting organizations are self-reporting; you may use the credit reporting form provided to verify your attendance at this conference.

If you require a custom certificate of attendance beyond what the CEU reporting form can provide, please indicate that on the CEU form and return the original (top sheet) to the registration desk at the end of your last day attending the conference and keep the yellow sheet for your records.

If you're a current member of AIA or BPI, it is required that you also use the paper sign-in sheets in the back of each session room after every workshop you attend. We'll use these rosters to report AIA and BPI CEUs on your behalf.

While the Better Building by Design conference is hosted by Efficiency Vermont, the views of presenters, sponsors and exhibitors are their own and do not necessarily reflect any policy or position of Efficiency Vermont. Likewise, their involvement does not necessarily reflect an Efficiency Vermont endorsement of any promoted products, manufacturers, technologies, or opinions.

Workshops at a Glance

	EMERALD I	EMERALD II	EMERALD III		
DAY 1: APRIL 2, 2	2025				
7:00 AM	Exhibit Hall opens for registration and breakfast (Breakfast Sponsored by Mitsubishi Electric Heating & Air Conditioning)				
8:30-9:40 AM	Opening Session: Welcome & Best of the Best Awards; Keynote Address—Energy Insecurity in America: Exploring People-Centered and Place-Based Approaches to Treat this Multi-Dimensional Condition (Sponsored by ephoca) <i>Dr. Diana Hernández—Columbia University's Mailman School of Public Health</i>				
9:40-10:00 AM	Refreshment break in Exhibit Hall				
10:00-11:00 AM	Electrification of Commercial and Industrial Hot Water Systems	Achieving High Performance with Complex Community-Based Projects	The First Frontier in Home Weatherization: Attics and Cathedral Roofs		
11:00-11:20 AM	Refreshment break in Exhibit Hall				
11:20 AM-12:20 PM	Embodied Carbon Action in Residential Construction: RESNET Standard 1550	Everything You Wanted to Know about Heat Pump Refrigerants but Were Afraid to Ask	Mass Timber and Passive House Foam-Free Envelopes		
12:00-1:30 PM	Lunch (Sponsored by VGS) Lake Champlain Exhibit Hall & The Atrium (2nd Floor)				
12:30-1:15 PM					
1:30-2:30 PM	Municipal Energy Resilience Program	Safely Installing SPF in Occupied Buildings— Preparation and Testing Protocols	System COP: The Future of Energy Efficiency Modeling		
2:30-3:00 PM	Refreshment break in Exhibit Hall				
3:00-4:30 PM	Electric Heat and Grid Interactive Buildings in Vermont—Jay Peak, an Example of the Future	Lower GWP Heat Pumps are Here	RBES and Moisture Management for Durable Buildings		
4:00-6:00 PM		Exhibit Hall Open to Public			
4:30-6:00 PM	Evening reception—all welcome to attend (Sponsored by Vermont Frames and Foam Laminates of Vermont)				
DAY 2: APRIL 3, 2	2025				
7:30 AM	Exhibit Hall opens for registration and breakfast (Breakfast Sponsored by Emerson Swan)				
8:30-9:30 AM	Electrification Analysis for a Town Garage	What Metrics Should We Use to Define Success in Cutting Climate Emissions?	Timber Frame Construction: A Path to Net Zero		
9:30-10:00 AM	Refreshment break in Exhibit Hall				
10:00-11:00 AM	Analytics in Action: Sustainable Outcomes through HVAC Workshops	Scaling Biogenic Building Materials	Residential Buildings Resilience Modeling Tool		
11:00-11:15 AM	Refreshment break in Exhibit Hall				
11:15 AM-12:15 PM	Electrifying Vermont's HVAC Systems	Should Passive House be a New Multifamily Reach Goal for Vermont?	How Workforce Development Is Going: Workers' Perspectives		
12:00-1:30 PM	Lunch (Sponsored by Henry Company) Lake Champlain Exhibit Hall & The Atrium (2nd Floor)				
12:30-1:15 PM					
1:30-5:00 PM	Exhibit Hall closed; Exhibitor tear-down				
1:30-3:00 PM	So You've Selected Your Ventilation Equip- ment, What's Next? Residential Ventilation System Design to Achieve 2030 Goals	Design with New Refrigerants in Occupied Spaces: Safety Guidelines for Lower- Flammability (A2L) Refrigerants	Cracking the (2024 CBES) Code: Planning and Executing for Unit Compartmentalization Success		
3:00-3:15 PM	Refreshment break in Emerald Ballroom Foyer				
3:15-4:30 PM			Closing Plenary: Big Challenges, Big Opportunities: A Mindset for Responding to the Climate Crisis and Striving Toward Our Goals (Sponsored by Bosch Home Comfort) Najat Croll—New Frameworks Jacob Deva Racusin—New Frameworks Mike Xenakis—New Frameworks		

DIAMOND I	DIAMOND II	AMPHITHEATRE			
DAY 1: APRIL 2, 2025					
Exhibit Hall opens for registrati	on and breakfast (Breakfast Sponsored by Mitsubishi Elec	tric Heating & Air Conditioning)			
	Refreshment break in Exhibit Hall				
Getting Us to Net-Zero: Innovative Financing Solutions to Address Workforce Constraints	Why Vermonters Need to Consider Energy Resilience Even if They Don't Experience Power Outages	Beyond Efficiency: The Overlooked Benefits of Air- to-Water Heat Pumps			
Refreshment break in Exhibit Hall					
Vermont's Existing Mobile Home Market	Toward 2030: Integrating Mental Health, Innovation, and Sustainability Goals	Innovating for Efficiency: Next-Generation Heat Pumps			
Lunch (Sponsored by VGS) Lake Champlain Exhibit Hall & The Atrium (2nd Floor)					
		Efficiency Excellence Network (EEN) Overview			
Close Only Counts in Horseshoes, Hand Grenades, and Net-Zero Buildings?	Metamorphosis of a Derelict 1860s Farmhouse	Finding Ways to Capture Carbon in Affordable Housing			
Refreshment break in Exhibit Hall					
The Weatherization Workforce: Developing New Workers	Vermont's Changing Thermal Sector: Assessing Fuel Sales, GHG Emissions, and Policy Options	Ground Source Heat Pumps 101: Back to Basics and Increasing Market Penetration			
	I Exhibit Hall Open to Public	I			
Evening reception—all we	elcome to attend (Sponsored by Vermont Frames and Fo.	am Laminates of Vermont)			
DAY 2: APRIL 3, 2025					
Exhibit Hall ope	ens for registration and breakfast (Breakfast Sponsored by	Emerson Swan)			
Is Going 100% Electric an Achievable Goal?	The Dynamics of the Seal	Applying Heat Pump Technology in Cold Climates			
Refreshment break in Exhibit Hall					
Heating Big Old Buildings Now with Biofuels	Utilizing the 2024 International Energy Conservation Code Appendices to Achieve Net-Zero-Energy and Related Goals in Commercial Buildings	Electrification, Decarbonization, and Heat Pump Tech Can Make Your Building More Efficient			
Refreshment break in Exhibit Hall					
Uncovering Hidden Efficiency: Control Treasure Hunts for Existing Building Automation Systems	Home Performance with ENERGY STAR® for Efficiency Excellence Network Members	Introduction to Structural Insulated Panels (SIPs)			
Lunch (Sponsored	1 d by Henry Company) Lake Champlain Exhibit Hall & The	Atrium (2nd Floor)			
		Efficiency Excellence Network (EEN) Overview			
	Exhibit Hall closed; Exhibitor tear-down				
If You Thought Our Samsung Electronics Were Impressive—Come See How Our HVAC Systems are Revolutionizing the HVAC Industry	Whole Building Electrification: Lessons from Burlington High School	Equity in Infrastructure: Vermont's Framework to Build Your Workforce			
Refreshment break in Emerald Ballroom Foyer					

Workshop Details DAY 1: WEDNESDAY, APRIL 2, 2025

Download the free conference app for session descriptions, speaker bios, hotel floor plan, and more!

Search "Whova" in the App Store on your iPhone or in Google Play on your Android phone. Once it's downloaded, search for the event: BBD, in the Explore Events section.

8:30 AM-9:40 AM

Opening Session: Welcome & Best of the Best Awards Keynote Address—Energy Insecurity in America: Exploring People-Centered and Place-Based Approaches to Treat this Multi-Dimensional Condition

Dr. Diana Hernández-Columbia University's Mailman School of Public Health AIA pending approval

10:00 AM-11:00 AM

Achieving High Performance with Complex Community-Based Projects

R / Intermediate **EMERALD II**

Diantha Korzun—qbA Architecture Dan Wheeler-gbA Architecture

AIA-HSW; AIA-LU; BPI

Beyond Efficiency: The Overlooked Benefits of Air-to-Water **Heat Pumps**

R&C/Intermediate **AMPHITHEATRE**

Jim Bashford—SpacePak — A Mestek Company AIA-HSW; AIA-LU

Electrification of Commercial and Industrial Hot Water Systems

C / Intermediate **EMERALD I**

Melissa Stewart-VEIC Tom Zoller-Trane AIA-HSW; AIA-LU; BPI

AIA-LU; BPI

C / Introductory **DIAMOND I**

Getting Us to Net-Zero: Innovative Financing Solutions to Address Workforce Constraints

Hydie Hudson-Social Finance

The First Frontier in Home Weatherization: R / Introductory Attics and Cathedral Roofs **EMERALD III**

Henri Fennell—HC Fennell Consulting AIA-HSW; AIA-LU; BPI

Why Vermonters Need to Consider Energy Resilience Even if They Don't **Experience Power Outages**

R&C/Intermediate DIAMOND II

Allison Ross-VEIC AIA-HSW; AIA-LU; BPI

11:20 AM-12:20 PM

Embodied Carbon Action in Residential Construction: **RESNET Standard 1550**

R / Intermediate **EMERALD I**

Andy Buccino—Stephens and Company Jacob Deva Racusin—New Frameworks Chris Magwood—RMI AIA-LU; BPI

Everything You Wanted to Know about Heat Pump Refrigerants but Were Afraid to Ask

R&C/Intermediate **EMERALD II**

Jake Marin-VEIC AIA-HSW; AIA-LU; BPI

Innovating for Efficiency: **Next-Generation Heat Pumps** R&C/Intermediate

Chris Morley—Morley Associates, Inc. AIA-LU

AMPHITHEATRE

Mass Timber and Passive House Foam-Free Envelopes

R&C/Intermediate **EMERALD III**

Armand Graham-Armand Graham LLC Floris Keverling-Buisman—Four Seven Five Supply AIA-HSW; AIA-LU; BPI

Toward 2030: Integrating Mental Health, Innovation, and Sustainability Goals

C / Introductory DIAMOND II

Emily Eckert-Efficiency Vermont AIA-LU; BPI

■ Vermont's Existing Mobile Home Market

R / Introductory **DIAMOND I**

Leslie Badger-VEIC Kevin McGrath-VEIC AIA-HSW; AIA-LU; BPI

12:30 PM-1:15 PM

Efficiency Excellence Network (EEN) Overview

R&C/Introductory **AMPHITHEATRE**

Steve Casey—Efficiency Vermont

1:30 PM-2:30 PM

Close Only Counts in Horseshoes, R&C/Intermediate Hand Grenades, and Net-Zero Buildings? DIAMOND I

Jesse Remick—Black River Design Architects Polly Wheeler—Black River Design Architects

AIA-HSW; AIA-LU; BPI

Finding Ways to Capture Carbon in Affordable Housing

R / Introductory **AMPHITHEATRE**

Alex Carver—Northern Timbers Construction Steve Ingram—Habitat for Humanity Addison County AIA-HSW; AIA-LU; BPI

Metamorphosis of a Derelict 1860s Farmhouse R / Intermediate

Alan Benoit-Sustainable Design LLC AIA-HSW; AIA-LU; BPI

DIAMOND II

Municipal Energy Resilience Program

C / Intermediate **EMERALD I**

Callie Fishburn—Bennington Regional Planning Commission Brian Sewell—State of Vermont BGS Janet Shatney—Barre City Nicholas Thiltgen—DuBois & King, Inc.

AIA-HSW; AIA-LU; BPI

Safely Installing SPF in Occupied Buildings—Preparation and Testing **Protocols**

R&C/Intermediate **EMERALD II**

Henri Fennell—HC Fennell Consulting AIA-HSW; AIA-LU; BPI

System COP: The Future of **Energy Efficiency Modeling**

C / Advanced **EMERALD III**

Barry Stephens-Ventacity Systems, Inc. AIA-HSW; AIA-LU; BPI

3:00 PM-4:30 PM

Electric Heat and Grid Interactive Buildings in Vermont—Jay Peak, an Example of the Future

C. / Advanced **EMERALD I**

Cvril Brunner—Vermont Electric Coop Walker Calderwood—Cx Associates Rick Stehmeyer—Albireo Energy Andrew Stenger—Jay Peak Resort

AIA-HSW; AIA-LU; BPI

Ground Source Heat Pumps 101: Back to Basics and Increasing Market Penetration

R&C/Introductory **AMPHITHEATRE**

Will Lange—Water Furnace George Martin-LN Consulting Will Schwartz-Efficiency Vermont

AIA-LU; BPI

Lower GWP Heat Pumps are Here

R / Intermediate

Li Ling Young-VEIC AIA-HSW; AIA-LU; BPI

EMERALD II

RBES and Moisture Management for Durable Buildings

R / Intermediate **EMERALD III**

Steve Spatz-Efficiency Vermont AIA-HSW; AIA-LU; BPI

The Weatherization Workforce: **Developing New Workers**

C / Introductory **DIAMOND I**

Junio Anthes-Moody—SEON Pam Laser—ReSOURCE Guy Payne—SEON Kim Rupe-Lennox-Vermont Adult Learning

AIA-LU; BPI

Vermont's Changing Thermal Sector: Assessing Fuel Sales, GHG Emissions, and Policy Options

R&C/Intermediate DIAMOND II

Jared Duval—Energy Action Network Emily Levin-NESCAUM Lena Stier-Energy Action Network AIA-HSW; AIA-LU; BPI

DAY 2: THURSDAY, APRIL 3, 2025

8:30 AM-9:30 AM

Applying Heat Pump Technology in Cold Climates

R / Introductory **AMPHITHEATRE**

Steve Grady—TSS Associates, Inc.

Electrification Analysis for a Town Garage

C / Intermediate **EMERALD I**

Andrew Shapiro—Energy Balance Inc AIA-HSW; AIA-LU; BPI

Is Going 100% Electric an Achievable Goal?

C / Intermediate

Andrew Munkres-Elderly Services Corey O'Connell-VEIC Matt Sharpe-VEIC AIA-HSW; AIA-LU; BPI

DIAMOND I

KEY TO WORKSHOP TRACKS

Design & New Construction

Journey to Decarbonization

Engagement & Workforce Development

Optimizing Existing Buildings

Measuring Progress & Bridging Gaps

Innovation

R = Residential C = Commercial

The Dynamics of the Seal

R / Introductory **DIAMOND II**

Residential New Construction

Multifamily Gut Rehab—Large Projects

Project Winner: Community Development Support Inc., Vermont Housing and

Conservation Board, Northern Border Regional Commission

Project: DeWitt Block Location: Brattleboro

Multifamily New Construction—Small Projects

Project Winner: Village Ventures

Project: 501 Main Location: Fairlee

Multifamily New Construction—Large Projects

Project Winner: Cathedral Square

Project: Bayview Crossing Location: South Hero

Judging Criteria:

• Demonstration of a commitment to healthy home principles.

Single Family—Affordable New Construction—Site Built

Project Winner: Hildebrand Homes, LLC

Project: River Street Location: Rutland

Single Family—Affordable New Construction—

Manufactured Housing Project Winner: RuralEdge Project: Shattuck Hill Location: Newport

Judging Criteria:

• Affordable construction costs and estimated energy costs.

Single Family—Market Rate New Construction— **ADU/Tiny House**

Project Winner: New Frameworks

Project: Alfred Street Location: Burlington

Single Family—Market Rate New Construction—Site Built

Project Winner: Kinsey Construction Project: South Craftsbury Road

Location: Craftsbury

Judging Criteria:

• Demonstration of a comprehensive approach to energy-efficient new construction.

Commercial Building Design & Construction

Large Commercial New Construction

Project Winner: Wiemann Lamphere Architects

Project Owner: Greenfield Capital, LLC Project: OnLogic Corporate Headquarters

Location: South Burlington

Mid-Size Commercial New Construction

Project Winner: SAS Architects

Project Owner: Vermont Department of Buildings

and General Services

Project: Williston Public Safety Building

Location: Williston

Innovative Combined Commercial New Construction & Rehabilitation

Project Winner: TruexCullins Architecture + Interior Design

Project Owner: Winooski School District

Project: Winooski Schools

Location: Winooski

Judging Criteria:

- ENERGY EFFICIENCY
- The overall energy efficiency of the project is assessed as weighed against the 2020 CBES.
- NON-ENERGY AND EMERGING TECHNOLOGY The project's use of cutting-edge technologies is assessed for providing energy and non-energy benefits to the building occupants and the climate.
- ELECTRIFICATION FUTURE PROOFING The Best of the Best commercial new construction projects will be ready for Vermont's electrified future. In addition to the energy and non-energy benefits the project has presented, the building's progress towards wholistic electrification and/or whole building electrification readiness is assessed.

Efficiency Excellence Network

Leadership Award

Company: J.W. & D.E. Ryan, Inc.

Contact: Tim Ryan Location: Vergennes

Nomination Criteria:

- Cutting edge or innovative approaches, willingness to try something new, participation in pilot programs.
- Influence in the field of energy efficiency.
- Commitment to the principles and concepts needed to advance energy efficiency and drive the adoption of best practices.
- Integration of energy efficient solutions into projects, with a focus on achieving energy goals cost effectively for their customers.

Partner of the Year Award

Company: Sisler Builders

Contact: Steve Sisler and Luke Sisler

Location: Stowe

Nomination Criteria:

- A track record of positive customer interactions and feedback.
- Commitment to the principles and concepts needed to advance energy efficiency and drive the adoption of best practices.
- Embracement and promotion of Efficiency Vermont's mission, demonstrated through collaborations with EVT staff to understand and improve services offered and support a positive customer experience in the delivery of these services.
