

## 2026 Blair Hamilton Student Scholarship Application

Efficiency Vermont's Better Building by Design conference is pleased to offer the Blair Hamilton Student Scholarships to support and inspire students to pursue the advancing of energy efficiency and renewable energy, which Blair dedicated his life to.

There are a limited number of one-day student scholarships available to college students, high school students, and adult learners in Vermont. Adult learners eligible for scholarship consideration are those that are actively enrolled in coursework to pursue a degree, license, or certification in the skilled trades.

Scholarships are available on a first-come, first-served basis. There will be a wait list for students who do not make the first award of scholarships and will be added if more funds become available. We strongly encourage those from traditionally socially disadvantaged communities to apply. You may apply for both scholarships, though only one will be awarded to you, if successful.

If you would like to apply to receive a Blair Hamilton Student Scholarship, please fill out this form and return it to Will Schwartz at [wschwartz@veic.org](mailto:wschwartz@veic.org) by **April 6, 2026**.

All submitters will be notified by **April 20th, 2026**, if they have been selected as a recipient.
