2027 Efficiency Vermont Awards

Best of the Best in
Commercial Building Design & Construction
Entry Form

PROJECT INFORMATION

Building Name:
Location:
Client / Owner name or Business Name:
Intended Occupancy Type:
Date Certificate of Occupancy Issued:
Total Construction Cost:
Building Size (Conditioned floor Sq. Ft):

PROJECT PHOTOS

Please provide a minimum of 2 .jpeg photos of the building with at least one being exterior.

UPLOAD

PROJECT NARRATIVE

Please provide a one to two paragraph description of the building's construction history, intended use, and design highlights (energy and non-energy features).

KEY ENERGY EFFICIENCY MEASURES

Please fill out all that apply. This list is meant to be a guide. If you have comparable statistics or features not specifically called out, please include where you feel they are most appropriate.

Lighting (Lighting Power Density)	
Ventilation (Energy/Heat Recovery Ventilation – unit efficiency, Variable Frequency Drives used, IAQ sensors and controls, etc.)	
Heating and Cooling (Heat Pumps, High Efficiency Systems, # of Units, Equipment Models, etc.)	
Water Management/Recovery	
Thermal shell features (Insulation R values wall, attic/roof, foundation, slab, Windows (U value), Building orientation choice, Building tightness blower door test results - cfm50 or cfm75, cfm50/75/sq. Ft. Building shell area-)	
Domestic Hot Water (Heat Pump Water Heaters, Controls, low flow fixtures, drainwater heat recovery, etc.)	
Refrigeration (Condenser Efficiency, Set Point Control Sequences, etc.)	
Building Controls (Building Management System, Occupancy Sensors, Controls Sequencing, Integration Between Systems etc.)	
Flexible Load Management (Control sequences for load management, enrollment in an FLM program, management including manual load control, etc.)	
Total Estimated Annual Energy Savings and/or Expected Annual Energy Costs (expected kWh, expected MMBTU (or gallons of fuel) and expected annual dollar savings and/or operating costs, or expected Energy Use Index – EUI – kBtu/sq. Ft.)	
Any Building Certifications, Design Awards or other Recognition	
Other:	

NON-ENERGY AND EMERGING TECHNOLOGIES MEASURES *Please fill out all that apply.*

Strategic Energy Management (Long-term Energy Improvement and Operations Planning)	
Indoor Air Quality	
Backup Generation/Storage (Thermal and Electrochemical Storage)	
Embodied Carbon (Low global warming potential construction materials, construction material reuse/recycling)	
Low Global Warming Potential Refrigerants (Natural and/or Low GWP Refrigerant Type)	

Other:	

ELECTRIFICATION FUTURE PROOFING MEASURES *Please fill out all that apply.*

Renewable Generation	
Renewable Generation Readiness	
Electric Vehicle Charging	
Electric Vehicle Charging Readiness	
Electrification Readiness	
Building Electrification	
Other:	

PHOTOGRAPHY & PUBLICITY RELEASE

The owners / copyright holders of the contents and materials in this entry grant permission to Efficiency Vermont to use the materials for editorial and professional / educational purposes. Efficiency Vermont may reproduce these materials and photos in its own or other publications and audiovisual presentations for an unlimited period of time.

Efficiency Vermont will include photographer and entrant credit in its identification material of the photograph or other poster materials, and will endeavor to see that the proper credit is given to the photographer whenever possible. Entrants will be responsible for the royalties, copyright, or photographer fees.

I grant permission for this information to be featured in Efficiency Vermont publications, website and promotions:

- You may publicize my name and/or business name.
- You may publicize project details, including energy efficiency actions, estimated financial savings and costs, financial incentives and energy savings.
- You may publicize my photo and/or a photo of my home or business.

NAME OF PERSON COMPLETING SUBMISSION

Company / Firm Name (if applicable):
Contact Name (Please Print):
Signature:
Phone:

ALL ENTRIES DUE JANUARY 15, 2027

Please submit this online form or send your completed entry – including form and digital media – to:

Jason Nachamie at jnachamie@veic.org

For additional information, contact Efficiency Vermont Program Manager:
Jason Nachamie, 802-540-7938, jnachamie@veic.org
