THE POWER OF SAVINGS

Each year, Efficiency Vermont works to bring the benefits of energy savings to Vermont homes, businesses, and communities. Today, thousands of Vermonters are enjoying homes that are more affordable, comfortable, and healthy. Businesses, big and small, have reduced operating expenses and invested in their growth. And communities are making their municipal budgets go further thanks to cost saving measures like LED street lights or wastewater plant improvements.

“At Efficiency Vermont we advance sustainable energy solutions for all Vermonters. I’d like to invite you to work with us and see how we can help.”

LIZ GAMACHE
DIRECTOR OF EFFICIENCY VERMONT

2014

Efficiency Vermont

2014

Year in Review

EFFICIENCY VERMONT'S ANNUAL HIGHLIGHTS

Vermonters achieved energy savings of **88,000 megawatt-hours.**

Here are some of the ways we have helped:

IN HOMES

36%

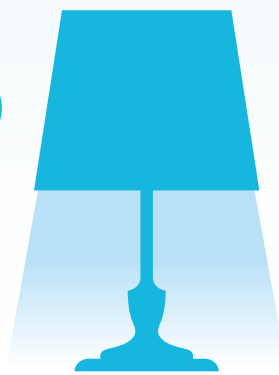

of all new homes built in Vermont were made more efficient by partnering with Efficiency Vermont.

Vermonters took advantage of the lowest price in energy-efficient LED bulbs in the nation.

88%

increase in the amount of LED bulbs purchased by Vermonters.

IN BUSINESSES

1 in 5

dairy farms improved their energy efficiency in 2014. Since 2000,

nearly 1/2 of all farms

have worked with Efficiency Vermont to save energy.

75%

 of ski areas switched to more efficient snowmaking equipment

installing **2700** new snow guns that use up to

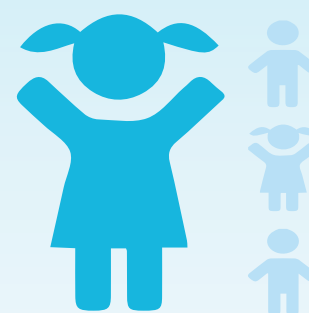

85%

 less energy to operate.

IN THE COMMUNITY

1 in 4

K-12 students go to a school that improved its energy efficiency in 2014.

22 towns

switched to LED street lights in 2014.

44%

of all the street lights in the state are now using energy saving LED technology.

RESULTS THAT MATTER

Efficiency Vermont has worked with tens of thousands of Vermonters over the last 14 years to help them save energy in order to make their homes more comfortable and their businesses more profitable.

Vermonters who made energy-saving investments in their homes and businesses in 2014 will enjoy over

\$178 million

in continued savings that last beyond 2014.

INNOVATIVE SAVINGS WITH LASTING BENEFITS

Vermonters' energy efficiency investments since 2000 will result in a total savings of

\$1.6 billion

OVER THE LIFETIME OF THE IMPROVEMENTS
