Interest Rates

Household income*	Loan Terms		
	Up to 5 years	5 - 10 years	10 - 15 years
Below \$60,000	0%	1.99%	2.99%
Between \$60,001 - \$90,000	0%	2.99%	3.99%
Over \$90,000	4.99%	5.99%	6.99%

**Income guidelines apply*

Why finance?

Efficiency upgrades will lower your energy bills now, which helps offset your monthly loan payment.

Once your loan is paid, you'll continue to enjoy energy savings, lower bills, and a more comfortable home for many years to come.

If your energy savings are substantial, you may even see a decrease in your monthly energy expenses.

Financing brought to you in partnership with:

Eligible projects and Efficiency Vermont rebates

Weatherization improvements

Cold-climate heat pumps

Central wood pellet furnaces and boilers

Heat pump water heaters

ENERGY STAR® appliances

Cord wood and pellet stoves

Financing appliances requires a \$300 minimum purchase. Direct-vent or wall-vented space heaters do not qualify for financing through this program. Vermont Gas Systems customers are only eligible to finance ductless heat pumps, heat pump water heaters, and electric appliances through the Home Energy Loan. Contact Vermont Gas or Efficiency Vermont to learn about other financing options.

A contractor network you can trust

EEN contractors are trained and certified to deliver the highest quality energy-efficiency technologies and services to Vermonters. The certification requirements include state licensing, insurances and professional credits.
