

FREE APPLIANCE REPLACEMENT OPPORTUNITY

Services for income-eligible Vermont residents

The proportion of your household income that goes toward electric bills each month may make you eligible to receive **free and reduced-cost products and services** to help **lower your bills**.

We can help.

Efficiency Vermont assists renters, homeowners, and property owners with understanding energy bills and the solutions available that help lower energy costs. To confirm your eligibility call Efficiency Vermont. Service may include:

-  New appliances (like a refrigerator, deep freezer, clothes washer)
-  An energy assessment of your living space
-  New LED lightbulbs and water saving devices
-  If you use electricity to heat your home or water, you could also get a free ductless heat pump or heat pump water heater

Available while supplies last. Due to high demand, there may be wait times before receiving your services. These services are not currently available to Burlington residents. If you have previously enrolled in an income-eligibility program with Efficiency Vermont, you will not be eligible for this service.

Contact our multilingual customer support team to discuss the services available to you.
