Days/Year Pump Runs <small>(on average)</small>	Pump Motor HP	Installation Date	A = Quantity of New VFDs	B = Rebate/VFD <small>(see website)</small>	A x B = Rebate Amount
Total Rebate					\$

Program Eligibility and Exclusions

Rebate offer is available to all agricultural customers of Vermont electric utilities. New construction projects are not eligible for the rebates on this form. Rebate cannot be combined with any other Efficiency Vermont offer (including point of purchase discounts) and is subject to change without notice. In the event a rebate is discontinued or changed, submissions will be honored at the higher amount if the qualifying product was purchased prior to the effective date of the change, with installations and rebate submission occurring within 30 calendar days of the change.

Burlington Electric Department customers are not eligible for the \$50 online submission bonus.

All equipment must be new, installed in Vermont, and listed on the Qualifying Products List (or meet Efficiency Vermont qualifying criteria) at the time of purchase. Used, rebuilt, or refurbished equipment is not eligible.

Payment will not exceed the purchase price, and excludes all other costs including shipping, sales tax, or disposal/recycling expenses (installation costs of HVAC and refrigeration equipment, and installation and freight costs of agricultural equipment are eligible). Customer is responsible for any tax liability associated with rebate payment. Allow 60 calendar days for delivery of payment. Incomplete or missing information will delay processing.

IBM, Global Foundries, Omya, and Vermont electric utility companies are not eligible.
