

# Agricultural Lighting and Equipment Rebate Form

In this form, you can find rebate information for:

- > LED Lighting
- > Heat Recovery Units
- > Variable Frequency Drives
- > Agricultural Energy Efficiency Loans
- > Efficient Ventilation Fans

Efficiency Vermont and Burlington Electric Department offer technical assistance and rebates to help businesses make cost-effective improvements. We also partner with distributors to offer discounted products in their stores. Please contact us with any questions or for additional assistance.

## How to apply

- Visit [www.encyvermont.com/rebates](http://www.encyvermont.com/rebates) for product eligibility and rebate information.
- Read the Terms and Conditions to determine if you are eligible for a rebate.
- Verify that the product(s) you are going to purchase and install meet the eligibility requirements listed in the corresponding product section, or contact us.
- Purchase and install qualifying product(s).
- Complete and sign the application.
- Include a copy of your invoice(s) as proof of purchase.
- Submit completed application form and invoice(s).

## Need help?

For more information or to confirm eligibility, call **888-921-5990** or email [info@encyvermont.com](mailto:info@encyvermont.com).

Efficiency Vermont and Burlington Electric Department can help finance your project at a low rate with no collateral down. Please call us for more information.

## We're going paperless!

Efficiency Vermont is moving toward a fully paperless rebate application process in order to be more responsive to the needs of our customers. Rebate amounts and product offerings will be updated on our website at [www.encyvermont.com/rebates](http://www.encyvermont.com/rebates).

<b>Project #</b> _____	

# 1 LED Lighting

## Eligibility Requirements

- Please visit [www.encyvermont.com/rebates](http://www.encyvermont.com/rebates) to determine the rebate amount.
- LED fixtures must be new and qualified by DesignLights Consortium® (DLC). To search for a specific product visit [www.encyvermont.com/qualified-lighting](http://www.encyvermont.com/qualified-lighting). Please make sure your product is qualified by DLC by clicking on the Details button located next to the products listed in the link above.
- This rebate form should be used for fixtures being installed **INSIDE** an agricultural facility **EXCEPT** in the following situations:
  - For LED fixtures to be installed in exterior locations, and LED mogul screw-base replacements for HID lamps, please go to [www.encyvermont.com/commerciallightingform](http://www.encyvermont.com/commerciallightingform) to utilize the Efficiency Vermont Commercial Lighting Rebate form.
  - For LED products to be installed for plant growing applications, please contact Efficiency Vermont to inquire about potential custom incentives.
- Products should be appropriately rated for the application in which they are going to be installed. Consult with manufacturer specification sheet for warranty applicability.

## Fill Out Below

LED Installation Location*	LED Manufacturer	LED Model #	Fixture Lumen Output	# of Hours Lights are on per Day	Installation Date	A = Quantity of New Fixtures	B = Rebate/ Fixture (see website)	A x B = Rebate Amount

\*e.g., milking parlor

Total Rebate Section 1 \$

# 2 Heat Recovery Units (HRU)

## Eligibility Requirements

- Please visit [www.encyvermont.com/rebates](http://www.encyvermont.com/rebates) to determine the rebate amount.
- Also known as a Fre-Heater®, pre-heater, or Therma-Stor® for the hot water system.
- Farm must milk at least 35 cows.
- For information on natural gas services and rebates, contact Vermont Gas Systems at 802-863-4511x321.
- Please contact Efficiency Vermont for biomass-fired hot water systems or for heat recovery units for farm types other than dairy.

- Sap Vacuum Pump must run 24 hours per day during maple sugaring season.
- Pump motor must be 7.5 HP or greater.

#### Fill Out Below

Hours/Day Pump Runs <small>(during sugaring season)</small>	Days/Year Pump Runs <small>(on average)</small>	Pump Motor HP	Installation Date	A = Quantity of New VFDs	B = Rebate/VFD <small>(see website)</small>	A x B = Rebate Amount
<b>Total Rebate Section 4</b>						<b>\$</b>

#### Agricultural Energy Efficiency Loan

Efficiency Vermont is proud to partner with VSECU to provide loans to Vermont farmers for qualifying energy efficiency improvements. If you would like to participate in the Agricultural Energy Efficiency Loan Program, please contact Efficiency Vermont for loan information before starting your project. Please note: A loan cannot be provided if equipment has already been purchased.

#### Efficient Ventilation Fans

Rebates are available for select, qualifying fans purchased and installed between 1/1/2018 and 9/30/2018. An Agricultural Ventilation Pre-Qualification Form must be completed and submitted to Efficiency Vermont for pre-approval to verify project eligibility, cost-effectiveness, and rebate amounts.

The Agricultural Ventilation Pre-Qualification Form and more information about project eligibility requirements can be found here: [www.encyvermont.com/agventilationform](http://www.encyvermont.com/agventilationform).

### Mail to:

Mail: Efficiency Vermont  
c/o Rebate Coordinator  
128 Lakeside Ave., Suite 401  
Burlington, VT 05401

Fax: 802-658-1643

E-mail: [rebatecoordinator@efficiencyvermont.com](mailto:rebatecoordinator@efficiencyvermont.com)

### Burlington projects, submit form to:

Mail: Burlington Electric Department  
c/o Energy Services Area  
585 Pine Street  
Burlington, VT 05401

Fax: 802-865-7500

E-mail: [efficiency@burlingtonelectric.com](mailto:efficiency@burlingtonelectric.com)

Burlington Electric Department (BED) administers efficiency programs for the City of Burlington, including the rebates listed on this form. For more information, call **802-865-7342**.

**Please note:** Equipment must be installed in an agricultural building that has active service from the electric utility grid. Rebates listed on this form are NOT available if the agricultural building is powered by a generator or off-grid. The Electric Utility Account in which the equipment is connected must be provided in Step 1: Customer Information & Agreement.

### Need help?

For more information or to confirm eligibility, visit [www.efficiencyvermont.com](http://www.efficiencyvermont.com) or call **888-921-5990**.

## Terms & Conditions

1. **REBATE:** This rebate offer is available to all agricultural customers of Vermont electric utilities, **except IBM, GlobalFoundries, Omya, and Vermont electric utility companies.** Rebate offers are subject to change without notice, availability of funding and may not be combined with any other offers. Qualifying products may be listed on the qualified products list on the Efficiency Vermont website, or described within the rebate form itself, as applicable. When possible, Efficiency Vermont will post on its website changes to the product rebate list including changes to the rebate amounts with as much notice as possible prior to the change. If a product is removed from the products list or the rebate amount changes, Efficiency Vermont will honor the rebate (at the higher amount) provided that a rebate form with all required documentation is postmarked or received by Efficiency Vermont within 30 calendar days from the date of removal or change to the rebate amount.
2. **PRODUCTS:** All products must be new and installed in an agricultural facility in the State of Vermont; used or rebuilt equipment is not eligible for rebate. Products must meet the specification requirement listed on Efficiency Vermont's products rebate list and be operational prior to submitting an application for rebate.
3. **LIMITATIONS:** Customer may submit only one form per project. Each project will be subject to a maximum amount of 250 individual rebate items. New constructions projects do not qualify. For information on such projects, please call Efficiency Vermont (or Burlington Electric Department for projects within the City of Burlington).
4. **PROOF OF PURCHASE:** Invoice(s) must include the quantity, size, type, manufacturer, model or part number, purchase date, and vendor of the efficient equipment. All sales transactions and installations are subject to verification and inspection. By signing this form, the customer consents to allow Efficiency Vermont (or, within the City of Burlington, Burlington Electric Department) 1.) to access the equipment for purposes of verification and inspection, and 2.) to disclose the customer's information (including but not limited to the customer's information included on this form and information on the invoice(s)) to the vendor and/or contractor who sold or installed the equipment to verify equipment purchase/installation and to collect additional information about the equipment and its installation.
5. **LIMITATION OF LIABILITY:** Performance of installed equipment is not guaranteed expressly or implicitly.
6. **ENDORSEMENT:** No particular manufacturers, products, or system designs are endorsed through this program.
7. **PAYMENT:** Allow 60 calendar days for delivery of payment. Incomplete or missing information will delay processing of rebate form and payment.
8. **MAXIMUM PAYMENT:** For lighting equipment listed in Section 1 of this form, maximum payment will not exceed 100% of the equipment purchase price, and customer is responsible for all other costs including shipping, sales tax, installation, disposal/recycling, and any tax liability associated with the rebate payment. For agricultural equipment listed in Sections 2, 3, and 4 of this form, maximum payment will not exceed 100% of the equipment purchase price, installation cost, and freight cost; customer is responsible for all other costs including sales tax, disposal/recycling, shipping, and any tax liability associated with the rebate payment.
9. **CAPACITY CREDITS/ENVIRONMENTAL CREDITS:** In accepting these financial incentives, the customer agrees that Efficiency Vermont (or, for customers within its service territory, Burlington Electric Department) holds the sole rights to any electric system capacity credits and environmental credits associated with the energy efficiency measures for which incentives have been received.
