

## CLOTHES WASHER TIPS

### Always use High Efficiency (HE) detergent.

Front-loading clothes washers are designed to use High Efficiency detergent. Using regular detergent creates too many suds, which will effect the machine's washing and rinsing performance. Over time, it can lead to odors and mechanical problems.

### Fill it up.

Clothes washers use about the same amount of energy regardless of the size of the load, so run full loads whenever possible.

### Wash in cold water.

Water heating consumes about 90% of the energy it takes to operate a clothes washer. Unless you're dealing with oily stains, washing in cold water will generally do a good job of cleaning. Switching your temperature setting from hot to warm can cut energy use in half.

### Activate the high speed spin option.

If your clothes washer has spin options, choose a high spin speed or the extended spin option to reduce the amount of remaining moisture in your clothes. This decreases the amount of time it takes to dry your clothes.

Valid for purchases made 6/1/18 - 12/31/18. All rebate requests must be postmarked no later than 1/31/19. This rebate offer is available to all electric utility customers in Vermont. Washer must be listed on the Efficiency Vermont qualified products list at the time of purchase and must be installed in Vermont to be eligible for rebate. This rebate may be subject to change without prior notice. This rebate may not be combined with any other Efficiency Vermont offer. Efficiency Vermont reserves the right to conduct field inspections to verify installations. The customer must contribute at least \$50 to the pre-tax purchase price of each washer; therefore, the rebate amount for each qualifying washer will be the lesser of (a) the applicable rebate listed on this form ("standard," or "premium"), or (b) the pre-tax purchase price of the washer minus \$50. Limitation of liability: Efficiency Vermont does not guarantee the performance of installed equipment expressly or implicitly, and will not be liable for any incidental or consequential damages of any kind in connection with the rebate program or in connection with the installation, implementation, or use of the equipment at the customer's premises. In accepting these financial incentives, the customer agrees that Efficiency Vermont holds the sole rights to any electric system capacity credits and environmental credits associated with the energy efficiency measures for which incentives have been received. Limit one washer rebate per Vermont residential electric account per year and two per commercial account per year. Allow up to 60 days for delivery of rebate. Incomplete or missing information will delay processing and payment. For more information, call 888-921-5990.

## CLOTHES WASHER REBATE

Efficiency Vermont **SMART CHOICE**
