Brought to you in partnership with:

Instant Rebates available at participating distributors

For eligible products, visit www.encyvermont.com/qualified-lighting.

ENERGY STAR®:

- LED screw-based replacement lamps
- LED fixtures and retrofit kits.

DLC Replacement Lamps:

- LED linear (TLED)
- LED four-pin base CFL replacement
- LED HID

DLC interior fixtures with and without integrated sensors:

- troffers
- surface/suspended linears
- low-bay
- high-bay

Note: Interior retrofit kits must submit this rebate form, no instant discount available.

DLC exterior fixtures & exterior retrofit kits with and without integrated sensors.

What is the DLC qualified products list?

The DesignLights Consortium (DLC) Qualified Products List is a leading resource for efficient commercial LED products. Efficiency Vermont and BED provide rebates based on DLC qualifications to ensure that you receive high quality products for your business.

Does your product qualify?

1. Use this rebate form to find your desired product category.
2. Visit www.encyvermont.com/qualified-lighting to search for a specific product by model number, manufacturer, etc.
3. Please make sure your product is qualified by DLC by clicking on the Details button located next to the products listed in the link above.

Why controls?

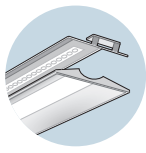

Your business can use lighting controls to automatically turn lights on and off as needed. Adding sensors or other controls to your upgrade can yield impressive results. Many projects using lighting controls have documented energy savings ranging from 30–75%.

Daylight sensors switch or dim lighting depending on the level of daylight.

Occupancy sensors turn on lights based on movement detected in the area.

LED Lighting and Controls

General Eligibility Requirements

- Visit www.encyvermont.com/rebates to determine the rebate amount corresponding to the products at right.
- To verify a retrofit kit is qualified, visit www.encyvermont.com/qualified-lighting. Please make sure your product is qualified by DLC by clicking on the Details button located next to the products listed in the link above.
- Limit: 250 lighting products per project. Please proceed with submission and we will contact you to verify project information.

Interior Control Eligibility Requirements

- For use on interior LED or fluorescent equipment.
- Commissioning is recommended for daylight controls.
- Companion switches for wireless sensors are not eligible for rebates.
- In order to qualify for a rebate, dual or daylight sensors must be installed in a location where daylight is detectable.

Exterior Control Eligibility Requirements

- For use on exterior LED or induction equipment.
- Lights must be turned off or reduced by at least 50% during unoccupied times.
- Timers and dusk-to-dawn sensors are not eligible for a rebate.

Type	DLC Category	Specification	Code
------	--------------	---------------	------

LED Retrofit Kits and Integrated Controls

	Retrofit Kits	Retrofit Kits for 1x4, 2x2, 2x4, Direct Linear Ambient, Low-Bay Luminaires, and High-Bay Luminaires	n/a	1.1	
	Retrofit Kit with Integrated Sensor		n/a	Integrated. Minimum 20 watts controlled.	1.2

Non-Integrated Controls

	Dual Daylight & Occupancy Sensors		n/a	Fixture-mounted. Minimum 20 watts controlled.	1.3
	Ceiling & Wall Remote Mounted Occupancy Sensors		n/a	Hard-wired or wireless. Minimum 150 watts controlled.	1.4
	Switch Mounted Occupancy Sensors		n/a	Minimum 60 watts controlled	1.5
	Fixture Mounted Occupancy Sensors		n/a	Minimum 30 watts controlled	1.6
	Ceiling & Wall Remote Mounted Daylight Sensors		n/a	Minimum 150 watts controlled	1.7
	Switch & Fixture Mounted Daylight Sensors		n/a	Minimum 30 watts controlled	1.8

Program Eligibility and Exclusions

Residential applications and new construction projects are not eligible for rebates listed on this form. Rebate cannot be combined with any other Efficiency Vermont offer (including point of purchase discounts) and is subject to change without notice. In the event a rebate is discontinued or changed, submissions will be honored at the higher amount if the qualifying product was purchased prior to the effective date of the change, with installations and rebate submission occurring within 30 calendar days of the change.

All equipment must be new, installed in Vermont, and listed on the Qualifying Products List (or meet Efficiency Vermont qualifying criteria) at the time of purchase. Used, rebuilt, or refurbished equipment is not eligible.

Payment will not exceed the purchase price, and excludes all other costs including shipping, sales tax, or disposal/recycling expenses (installation costs of HVAC and refrigeration equipment, and installation and freight costs of agricultural equipment are eligible). Customer is responsible for any tax liability associated with rebate payment. Allow 60 calendar days for delivery of payment. Incomplete or missing information will delay processing.

IBM, Global Foundries, Omya, and Vermont electric utility companies are not eligible.
