

THE ENERGY STAR CERTIFIED HEAT PUMP WATER HEATERS ELIGIBLE FOR A

**\$300 STANDARD
REBATE**

meet the Advanced Water Heater
Specification (AWHS) Tier 1
or 2 requirements

**\$500 PREMIUM
REBATE**

meet the AWHS Tier 3
requirements

Valid for purchases made 6/1/18 - 12/31/18. All rebate requests must be postmarked no later than 1/31/19. This rebate offer is available to all electric utility customers in Vermont who do not currently have a natural gas water heater. Water heater must be listed on the Efficiency Vermont qualified products list at the time of purchase and must be installed in Vermont to be eligible for rebate. This rebate may be subject to change without prior notice. This rebate may not be combined with any other Efficiency Vermont offer, including discounted pricing at wholesale locations. Efficiency Vermont reserves the right to conduct field inspections to verify installations. The customer must contribute at least \$50 to the pre-tax purchase price of each water heater; therefore, the rebate amount for each qualifying water heater will be the lesser of (a) the applicable rebate listed on this form ("standard" or "premium"), or (b) the pre-tax purchase price of the water heater minus \$50. Limitation of liability: Efficiency Vermont does not guarantee the performance of installed equipment expressly or implicitly, and will not be liable for any incidental or consequential damages of any kind in connection with the rebate program or in connection with the installation, implementation, or use of the equipment at the customer's premises. In accepting these financial incentives, the customer agrees that Efficiency Vermont holds the sole rights to any electric system capacity credits and environmental credits associated with the energy efficiency measures for which incentives have been. Limit one water heater rebate per Vermont residential electric account per year and two per commercial account per year. Allow up to 60 days for delivery of rebate. Incomplete or missing information will delay processing and payment. For more information, call 888-921-5990.

CUSTOMER SIGNATURE:

DATE:

I certify that I meet the eligibility requirements of this rebate program, and that all information submitted as part of this application is correct to the best of my knowledge. I agree to the terms and conditions listed above.

STEPS TO GETTING YOUR EFFICIENCY VERMONT REBATE:

1. Confirm eligibility (see terms and conditions at left).
Note: Rebate is not valid if wholesale discount has already been received on the purchase of the unit. Rebate is for Vermont electric utility customers who do not have a natural gas water heater.
2. Fill out this form completely and legibly. Incomplete information will delay or disqualify your rebate.
3. Collect dated sales receipt. Receipt should be from retailer/wholesaler where unit was purchased, but does not need to show original pricing if purchased by contractor/installer.
4. Sign this rebate and mail with copies of dated receipt, or submit online at: www.energystar.gov/HPWH

|------------------------------|--|
| LOCATION | <ul style="list-style-type: none"> It is recommended that units be installed in a space where the temperature stays above 50°F. Because of their noise and cooling effect, heat pump water heaters are better suited to basements (where they reduce the need for dehumidification) than living spaces. |
| SPACE | <ul style="list-style-type: none"> Provide at least 750 cubic feet of air space around the unit (about the size of a 10' x 10' room). Give the unit the manufacturer's recommended clearances from walls to ensure adequate circulation, and be sure the ceiling is high enough to accommodate the unit. |
| CONDENSATION LOCATION | <ul style="list-style-type: none"> Installation requires water to be pumped outside or passively drained to a sink, washing machine drain, or floor drain lower than the heat pump condensate port. |

*Based on electric units ≤ 55 gallons with a 13-year life.
