

REFRIGERATOR TIPS

Keep it cool.

Position your refrigerator away from heat sources—such as ovens and dishwashers—which make your refrigerator work harder to keep food cold.

Give it space to breathe.

Leave a space between the wall and the refrigerator to allow air to circulate — this keeps the coils cooler so your refrigerator doesn't have to work as hard. Consult your owner's manual for the recommended distance to ensure optimum energy savings.

Don't let a second fridge weigh down your bill.

If you have an older refrigerator in your basement or garage, it could be costing you \$110 per year to run it. If you need a second refrigerator year round, replace the old one with a new ENERGY STAR certified unit and save more than \$50 a year in operating costs.

Valid for purchases made 6/1/18 - 12/31/18. All rebate requests must be postmarked no later than 1/31/19. This rebate offer is available to all electric utility customers in Vermont. Refrigerator must be listed on the Efficiency Vermont qualified products list at the time of purchase and must be installed in Vermont to be eligible for rebate. This rebate may be subject to change without prior notice. This rebate may not be combined with any other Efficiency Vermont offer. Efficiency Vermont reserves the right to conduct field inspections to verify installations. The customer must contribute at least \$50 to the pre-tax purchase price of each refrigerator; therefore, the rebate amount for each qualifying refrigerator will be the lesser of (a) the applicable rebate listed on this form ("standard," or "premium"), or (b) the pre-tax purchase price of the refrigerator minus \$50. Limitation of liability: Efficiency Vermont does not guarantee the performance of installed equipment expressly or implicitly, and will not be liable for any incidental or consequential damages of any kind in connection with the rebate program or in connection with the installation, implementation, or use of the equipment at the customer's premises. In accepting these financial incentives, the customer agrees that Efficiency Vermont holds the sole rights to any electric system capacity credits and environmental credits associated with the energy efficiency measures for which incentives have been received. Limit one refrigerator rebate per Vermont residential electric account per year and two per commercial account per year. Allow up to 60 days for delivery of rebate. Incomplete or missing information will delay processing and payment. For more information, call 888-921-5990.

REFRIGERATOR REBATE

Efficiency Vermont **SMART CHOICE**

ENERGY STAR® CERTIFIED REFRIGERATORS

UP TO
\$75 OFF

www.encyvermont.com/shop | 888-921-5990
