

Additional comments: _____

Valid for purchases made 6/1/18 - 12/31/18. All rebate requests must be postmarked no later than 1/31/19. This rebate offer is available to all residential electric utility customers in Vermont. Thermostat purchased must be new (no used or refurbished units). Smart thermostat must be listed on the Efficiency Vermont qualified products list at the time of purchase and must be installed in Vermont to be eligible for rebate. Unit must be fully installed, connected to the internet via Wi-Fi and activated with the manufacturer prior to Efficiency Vermont issuing a rebate. This rebate may be subject to change without prior notice. This rebate may not be combined with any other Efficiency Vermont offer, including discounted pricing at wholesale locations. Efficiency Vermont reserves the right to conduct field inspections to verify installations. The customer must contribute at least \$50 to the pre-tax purchase price of each smart thermostat; therefore, the rebate amount for each qualifying smart thermostat will be the lesser of (a) the applicable rebate listed on this form, or (b) the pre-tax purchase price of the smart thermostat minus \$50. For any smart thermostats included in bundled packaging with other products, the \$50 minimum customer contribution will be subtracted from the stand-alone smart thermostat price (if available) or the approximate retail value, as determined by Efficiency Vermont in its reasonable discretion. Limitation of liability: Efficiency Vermont does not guarantee the performance of installed equipment expressly or implicitly, and will not be liable for any incidental or consequential damages of any kind in connection with the rebate program or in connection with the installation, implementation, or use of the equipment at the customer's premises. In accepting these financial incentives, the customer (a) authorizes the release of any smart thermostat usage data, including customer name and address, to Efficiency Vermont and any approved contractor or other vendor providing services under this Efficiency Vermont program; (b) the customer agrees that Efficiency Vermont holds the sole rights to any electric system capacity credits and environmental credits associated with the energy efficiency measures for which incentives have been received; and (c) agrees that Efficiency Vermont may contact the customer to provide information about additional programs and services that Efficiency Vermont may develop related to smart thermostats. Limit two smart thermostat rebates per Vermont residential electric account. Allow up to 60 days for delivery of rebate. Incomplete or missing information will delay processing and payment. For more information, call 888-921-5990.

CUSTOMER SIGNATURE:

DATE: _____

I certify that I meet the eligibility requirements of this rebate program, and that all information submitted as part of this application is correct to the best of my knowledge. I agree to the terms and conditions listed above.

STEPS TO GETTING YOUR EFFICIENCY VERMONT REBATE:

1. Confirm eligibility (see complete terms and conditions at left)
 - Residential customers only
 - Vermont electric utility account holder
 - Thermostat must be new (not used/refurbished)
 - Limit 2 per residential electric account
2. Fill out this form completely and legibly, sign it, or fill out the form online at www.efficiencyvermont.com/thermostats
3. Install smart thermostat in Vermont, connect to wifi, and register with manufacturer.
4. Collect dated sales receipt showing where unit was purchased, with original purchase price. Rebate is not valid if wholesale discount has already been received on the purchase of the unit.
5. Collect the following items and mail to the address below. Rebate will not be processed until the manufacturer confirms that your thermostat has been registered as a connected device.
 - Completed rebate form
 - Copy of dated receipt
6. Mail documents to:

**Smart Thermostat Rebate
Efficiency Vermont
128 Lakeside Avenue, Suite 401
Burlington, VT 05401**

(Do not include this rebate form with utility bill payment.)

All rebate forms must be postmarked no later than January 31, 2019.

Rebate will be mailed within 60 days. Incomplete or missing information will delay or disqualify your rebate.

VALID 6/1/18 - 12/31/18

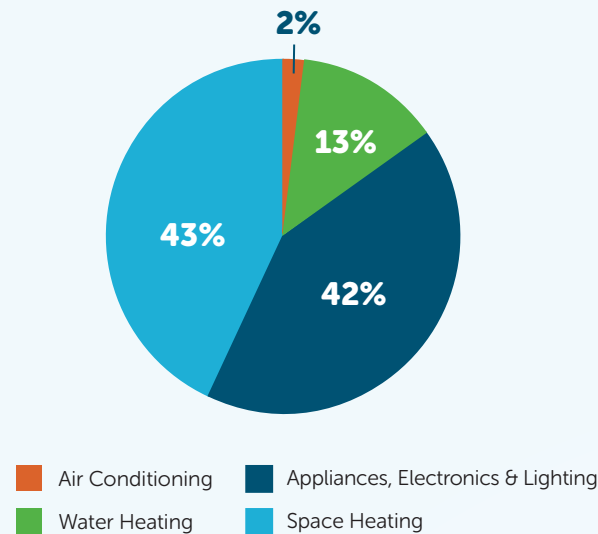

Why Choose a Smart Thermostat?

Compared to standard programmable thermostats, ENERGY STAR certified smart thermostats can give you the ability to:

- Create automatic and programmable temperature setbacks to reduce energy use based on daily schedules, weather conditions, and heating/cooling needs.
- Support additional energy management services to track your home's performance over time.
- Provide remote access via computer, tablet, or smartphone to monitor and change your home's temperature setting.
- Receive and respond to alerts via smartphone, email, or text message.

Household Energy Use

Almost half of monthly energy costs are controlled by your thermostat—a smart thermostat can help reduce your energy bills.

Next Steps!

Find an eligible product

Visit www.encyvermont.com/shop to find the thermostat models that are eligible for our rebate, or call 888-921-5990.

REGISTER THE NEW

After your new smart thermostat is installed and connected to wi-fi, be sure to register it as a connected device with the manufacturer.

RECYCLE THE OLD

Older thermostats may contain mercury and should be disposed of properly. Receive a \$5 instant credit at participating retail locations, or a \$5 mail-in coupon at participating household hazardous waste and HVAC wholesale locations. For more information and to find a disposal location, visit www.mercvt.org
