Thermostat 6: Manufacturer	Model #	Serial #
Expected rebate amount	Does thermostat control central AC? <input type="checkbox"/> Yes <input type="checkbox"/> No	

Eligibility & Exclusions

Lifetime limit of two smart thermostat rebates per Vermont residence and six per Vermont business location.

A customer contribution of \$50 to the pre-tax purchase price of each product is required; therefore, the rebate amount will be the lesser of (a) the applicable rebate listed or (b) the pre-tax purchase price minus \$50. For smart thermostats included in bundled packaging, the \$50 minimum contribution will be subtracted from the stand-alone retail value, determined at the reasonable discretion of Efficiency Vermont.

Unit must be installed, connected to Wi-Fi, and activated with the manufacturer prior to rebate submission. The customer authorizes the release of smart thermostat usage data, customer name, and address, to Efficiency Vermont or their designated contractor providing services under this program.

Rebate cannot be combined with any other Efficiency Vermont offer (including point of purchase discounts) and is subject to change without notice. In the event a rebate is discontinued or changed, submissions will be honored at the higher amount if the qualifying product was purchased prior to the effective date of the change, with installations and rebate submission occurring within 30 calendar days of the change.

All equipment must be new, installed in Vermont, and listed on the Qualifying Products List (or meet Efficiency Vermont qualifying criteria) at the time of purchase. Used, rebuilt, or refurbished equipment is not eligible.

Payment will not exceed the purchase price, and excludes all other costs including shipping, sales tax, or disposal/recycling expenses (installation costs of HVAC and refrigeration equipment, and installation and freight costs of agricultural equipment are eligible). Customer is responsible for any tax liability associated with rebate payment. Allow 60 calendar days for delivery of payment. Incomplete or missing information will delay processing.

IBM, Global Foundries, Omya, and Vermont electric utility companies are not eligible.
