

# CEE Tiers 1, 2, & 3 and ENERGY STAR® Most Efficient Standard-Sized Clothes Washers Eligible for Efficiency Vermont Rebate through 12/31/2018\*\*

\*One rebate per Vermont electric account per year.

\*\*Efficiency Vermont rebates are evaluated on a regular basis throughout the year to determine if program can continue for next cycle.

Rebate Structure			
Rebates are only for standard-sized* clothes washers.			
Efficiency Level	<u>Integrated Modified Energy Factor (IMEF)</u>	<u>Integrated Water Factor (IWF)</u>	Efficiency Vermont Rebate
Federal Standard <sub>2018</sub> Top-loading Front-loading	≥ 1.57 ≥ 1.84	≤ 6.5 ≤ 4.7	n/a
ENERGY STAR V8.0 Top-loading Front-loading	≥ 2.06 ≥ 2.76	≤ 4.3 ≤ 3.2	n/a <small>(unless it also meets CEE criteria)</small>
CEE Tier 1	≥ 2.76	≤ 3.2	<b>\$40</b>
CEE Tier 2 and ENERGY STAR Most Efficient 2018	≥ 2.92	≤ 3.2	<b>\$75</b>
CEE Tier 3	≥ 3.10	≤ 3.0	<b>\$75</b>

\*Standard-sized clothes washers are ≥2.5 cubic feet in volume.

IMEF - indicates how many cubic feet of laundry can be washed and dried (based on the remaining moisture in the load at the end of the cycle) with one kWh of electricity; the higher the number, the greater the efficiency. This figure takes into account the electrical energy consumption of the machine itself, as well as the energy used to heat the water.

IWF - indicates the number of gallons needed for each cubic foot of laundry in the cold cycle; a lower number indicates lower consumption and more efficient use of water.

For most up-to-date list of qualifying products, please visit [efficiencyvermont.com](http://efficiencyvermont.com)

<sup>1</sup>Asterisks (\*), plus signs (+), or pound signs (#) indicate that any variable may be used in place of the symbol.

<sup>2</sup>All products will be listed as eligible *until the end of the current rebate cycle*, unless a model is delisted. Following delistment, the following month's Qualified Product List will list a new 'For Purchases Made Before' submission deadline for the delisted model.
