

ENERGY STAR® Refrigerator Models Eligible for Efficiency Vermont Rebate

Efficiency Level	Efficiency Vermont Rebate
ENERGY STAR	\$40
ENERGY STAR Most Efficient or CEE Advanced Tier	\$75
Only ENERGY STAR certified standard-sized refrigerators are eligible for the rebate (\geq 7.75 cubic feet total volume). Upright freezers are not eligible for the rebate.	

Effective 5/1/2019

The most up-to-date information regarding this rebate and eligible products will always be posted at efficiencyvermont.com/rebates.

¹Asterisks (*), plus signs (+), or pound signs (#) indicate that any variable may be used in place of the symbol.

²Some model numbers have multiple options (such as an in the door ice maker), which affect the annual energy use. In those cases, the model number is listed once and the average of the annual energy usage is used.

³If a model is delisted by ENERGY STAR or the rebate is expiring or changing, Efficiency Vermont will provide a deadline for that specific product to be purchased. The product must be installed and the rebate application must be submitted no later than 30 days past that date in order to be eligible for the rebate amount at that time.
